GASKET SHOP UPDATE

Mr. Hershberger (Hersh), our founder, insisted on dedication to customer service and relationships by delivering more than promised or expected. This training and the memory of a true visionary will be the fuel that propels Hersh Packing & Rubber as we expand our gasket cutting business.

Since our beginning in 1958, Hersh Packing has hand cut gaskets and furnished product through manufacturers such as RM, J.M. Clipper, and Garlock. Our commitment to the gasket business makes it necessary to be very efficient at cutting, slitting, and delivering completed product at or above our customer's expectations. We have invested in three significant pieces of equipment, extensive stock of a wide variety of the best domestic materials, and relationships for quick turnaround of die capabilities. We are confident these investments will give us an edge over the competition. We plan to fulfill our mission by providing outstanding service to our customers in the

Our new Model TS98/L1200 Rewind Slitter can slit materials up to 48" wide and 7/16" thick. We can slit sponge, rubber, leather, and compressed gasket sheet products.

Our new Model SE 25L Atom Hydraulic Swing Arm Die Cutting Press with 24" head is ideal for small run gasket cuts from leather, cloth, rubber, cork, sponge, and similar materials.

Our new Model 588/10 Atom Traversing Head Press allows us to make multiple cuts from either wide sheets or roll goods. The automatic feeder reduces cutting time and handling. The 30" cutting head can accommodate single or multiple cavity dies.

Just a few of the dies in our stock are pictured to the left. We can take care of your emergency needs! Our large inventory of raw material allows us to offer a lead time of 1-2 days for sizes 1/2" through 24".

Rian Covell, pictured here, is our in-house die maker. Our ability to fabricate dies in-house allows Hersh to ship orders more quickly. With 20 years at the company, Rian relies on his experience to master his die making skills.

We can receive your prints to fabricate dies via fax or e-mail.
